

TUFF SCRIM™

14 MIL FIRE RETARDANT REINFORCED POLY SHEETING

PRODUCT DESCRIPTION

Tuff Scrim 14 mil FR is a 5-ply laminate combining three layers of fire retardant, linear low density virgin polyethylene and two high-strength cord grids. It is specifically engineered to provide high strength and durability in a lightweight material. The multiple layers and cord reinforcement resist punctures and tears and provides for a long life expectancy.

APPLICATIONS

- ▶ Temporary walls
- ▶ Plant dividers
- ▶ Building enclosures
- ▶ Containment tents
- ▶ Architectural vapor retarders
in walls, ceilings and roofing
systems
- ▶ Floor covers, dust partitions
- ▶ Cleanroom enclosures
- ▶ Equipment covers
- ▶ Pallet and custom covers for
outside storage
- ▶ Custom shipping container covers
and liners
- ▶ Environmental covers for waste
containment and disposal
- ▶ Industrial Packaging

PRODUCT USE

Tuff Scrim 14 mil FR is significantly stronger and more tear resistant than standard poly films. Its low permeability greatly inhibits moisture transmission. T90FR is flexible and lightweight for easy handling and quick installation. This film is used for many applications and works extremely well for crawlspaces and black-out covers.

SIZE AND PACKAGING

Standard Rolls from 4' x 100' to 40' x 100' in 4' increments of width are normally available with a production lead time of 5 days or less. Several of the most popular sizes are normally in stock.

Custom fabrication is available to meet your specifications, including 3 dimensional configurations. Sizes up to 100' x 150' can be produced.

Available in Natural and Green.
